The Smith-Henry-Hirshfield row cast gloom yesterday over the various Democratic clubs in this city. The members could view the situation only with that the situation was "rotten" and that the only hope lay in the confer ence being held in Atlantic City between Murphy, Mayor Hylan, Hirsh-field, Representative Tom Smith, Grover Whalen and a number of "others."

While the aforementioned were the only names in "official dispatches" tellthe meeting at the seaside resort, a Tribune reporter was informed last circles that the Atlantic City conclave included many "leaders" and "domi-

HARTFORD, Conn., March 28 .- One little chance of getting together the altogether willing and eager Connecticut Legislature to make the necessary thirty-sixth state to ratify the Susan B. Anthony suffrage amendment went glimmering to-day when it was announced by John Buckley, secretary to Governor Massays H. Helsent the solution of his companions and wounding several others of his guests and also some soldiers who were stoodies. to Governor Marcus H. Holcomb, that nant spirits" who had been called there the Governor had decided not to attend

included many "leaders" and "dominant spirits" who had been called there with a view of effecting pacification.

According to the Tribune's informant, the "others" who attended the meeting were so numerous that the affair looked like a Tammany Hall convention. Murphy, Smith and the Mayor were stopping at different hotels, and the session between the trio and the "others" was held at a private residence donated for the occasion by a prominent Philadelphiap.

Breach Growi, Wider

The charges brought by Dominick Henry, of the Fourth Inspection District, against Assistant District Attorney James E. Smith, which accuse to laster of being an intermediary seeking protection for atablishments which the police had sought to curb, are said to have been the immediate cause for the calling of the meeting in Atlantic City.

The indictment of John J. Gunson, a confidential member of Inspector Henry's staff, on the charge of accept.

Ing graft from women of the underworld caused an uncomfortable tremor in the administration. A similar action, engineered as was the first by Prosecutor Smith, against Detective Frederick Franklin, made matters worse.

The indictment of Third Deputy Police Commissioner Augustus Drum Porter, since removed by Commissioner Enright, is said to have opened the breach between the District Attorney's office, Police Headquarters and City Hall so wide that the powers in Fourieties the Street decided that healing remedies were absolutely necessary.

The publication of Inspector Henry's sensational affidavits, in which his accusations against Smith were made, was a bit premature, if stories being told in well informed circles yesterday can be believed. One well authenticated version of the matter is that copies of the affidavits were stolentrom the inspector's apartment on Central Park West and that, fearing they would be disadvantageously jased, he decided upon, and the idea was to let time absorb the vibrations from Smith's attacks.

WARSAW, March 28 (By The Associated Press).—Polish armored trains fought pitched battles against the Bolshevik monitors and other fighting craft on the Pripet River during the Bolshevik thrust which was designed of gain control of additional links of the railroad extending from Homel to Kalenkovitz and Mozir. The Bolshevik put down artillery preparation, which was followed by the opening of a barrage from the river boats and then infantry attacks.

In the region of Mozir the Bolsheviki attacked after artillery preparation, bringing a number of armored trains into action. The communiqué announces that two of these trains were destroyed. Along the Dnieper the "Red" forces used a flotilla in the region of Rietchitsa. The fighting in this sector is extending toward Kalenkovitz in a drive evidently aimed at the recapture of Mozir and its important railway connections, recently taken by the Poles in their drive anticipative of the Bolshevik offensive.

The new Cabinet, which it was expected would secure a three-fourths majority at to-morrow's sitting of the warm reception even from the coalition press, and the eleventh-hour elimination of Captain Fisher Cuno as Finance Minister especially is criticized in quarters which looked for great benefits to the country from his experience and business ability in the resumption of commercial relations with foreign countries.

Captain Cuno's decision is believed to have been largely influenced by the urgent request of the Hamburg-American Steamship Company begging him

BERLIN, March 27 .- It has been learned from American sources, says the "Tageblatt" today, that a number of American financial concerns, which had offered to provide credits to aid in the recovery of German trade, have withdrawn their offers as a result of the recent Kapp coupd'état.

For the same reason, adds the newspaper, the negotiations which had been nearly completed for shipments of large quantities of potash to America, have been postponed indefinitely.
